

## **Jakob Seidlitz, Ph.D.**

Jakob Seidlitz, Ph.D. is a senior research scientist at the Lifespan Brain Institute of The Children's Hospital of Philadelphia and University of Pennsylvania Perelman School of Medicine. Dr. Seidlitz completed his T32 postdoctoral fellowship in 2022, and received his PhD in clinical neuroscience in 2020 from the University of Cambridge as part of the National Institutes of Health (NIH) Oxford-Cambridge Scholars Program. His research centers around using large-scale datasets spanning multiple levels of biological scale, from neuroimaging and clinical phenomics to genomics and transcriptomics, to create methods for data integration and answer fundamental questions about human development and disease.
