

Jared Beyersdorf

Jared is a fifth year MD/PhD student in the Emory University Medical Scientist Training Program. He received his undergraduate degree in biological systems engineering from The University of Nebraska-Lincoln. He is currently in the third year of his PhD studies under Dr. Philip Santangelo in the Biomedical Engineering department at The Georgia Institute of Technology. His research interests include the application of fluorescence-based imaging methods to the development of mRNA-based therapies. Upon completion of his MD/PhD, he plans to pursue a residency in internal medicine, followed by fellowship in medical oncology. His career goal is to become an academic physician-scientist and continue to develop nucleic-acid based therapeutics.
