

**Ivan Navarro, PhD, Scientific Review Officer, Scientific Review Branch (SRB),
Division of Extramural Research (DER), NIDA**

Scientific Review Officer leading the NIDA-L Initial Review Group as well as the Avenir Award Program for Genetics or Epigenetics of Substance Use Disorders Special Emphasis Panel. The Avenir award is a Pioneer Award mechanism aimed at supporting early stage investigators proposing highly innovative studies. NIDA-L IRG review applications aimed at developing medications, biologics and medical devices for the treatment of substance use disorders. My scientific interest includes basic neuroscience research, translational research and clinical research with emphasis in medication development. Joined NIDA in January 2017.
