

**Katrina Foster, PhD, Health Science Administrator,
Clinical Research Grants Branch (CRGB), DTMC, NIDA**

Trained as a behavioral neuroscientist focused on identifying the neurobiological mechanisms underlying the positive reinforcing and neurobehavioral properties associated with ethanol. Subsequently, spent 10 years at NIH/NIAAA serving as a Scientific Review Officer. For the past 2 and ½ years, served as the Scientific Portfolio Manager at the Department of Veterans Affairs, managing the Substance Abuse and Mental Health portfolios for the Clinical Service Research Division and the Biomedical Laboratory Research Division. Currently, serves as the Program Officer for grants and cooperative agreements in the areas of cocaine and methamphetamine treatment research. Joined DTMC in 2018.
