Social Determinants of Drug Use Workshop; One State's Perspective

Craig L PoVey M.S.W.

Utah Division of Substance Abuse and Mental Health

Sept 9, 2020

NIH National Institutes of Health
HEAL Initiative

NIH HEAL Initiative and Helping to End Addiction Long-term are service marks of the U.S. Department of Health and Human Services.

How does your state/agency/organization think about their role in addressing social determinants

- State Incentive Grants
- State Health Improvement Plan
- Community Benefits-Nonprofit Hospitals

What factors influence the decision to adopt policies or interventions to address social determinants?

- Science
 - Awareness of issue
 - What the issue means
 - Trustworthy
 - Translated Science – Intuitive
 - Once “they” present it and get positive response, We’ve got em!

What data and other information are needed to facilitate adoption and implementation on a broader scale?

- The more local the better
- Peer Reviewed Journal Articles
 - *One sheet.. One Paragraph.. One really good presentation
- What if?

What data and other information are needed to facilitate adoption and implementation on a broader scale?

- Other Information:
 - One and done doesn't work
 - Top-Down approaches bring issues / barriers
 - Critical need: ongoing technical assistance, monitoring, support, evaluation and cutting-edge research
- What if?
 - Demonstration of influenza

How can researchers make information more accessible to end users?

- Peer Reviewed Journal Articles
- One sheet.. One Paragraph.. One good presentation, repetition
- Access to a researcher(s) available to translate
