

**Natasha Underwood, Ph.D.**

Natasha Underwood is a Health Scientist in the Division of Overdose Prevention in the National Center for Injury Prevention and Control. In this role, she oversees the cross-site evaluations for the Prevention for States and Overdose Data to Action cooperative agreements. Additionally, Dr. Underwood is exploring issues on health equity, social determinants of health and overdose prevention. Previously, she was a Health Education Specialist in the Division of Violence Prevention working with the U.S. Air Force on a violence prevention initiative to decrease interpersonal and self-directed violence, including sexual assaults, domestic and intimate partner violence on all bases worldwide. Dr. Underwood completed her MPH at Emory University's Rollins School of Public Health and her doctoral degree in Public Health at the University of Georgia with a concentration in Health Promotion and Behavior.
